The IRS-PRIME ALLIANCE

TASK ORDER DESCRIPTIONS

Approved/Funded Projects & Program Business Requirements

- ◆ Security & Technology Infrastructure Release (STIR)
 - ◆ Design a customer-focused technical infrastructure for secure telephony and electronic interaction among employees, tax practitioners and taxpayers.
 - ◆ Alliance Partner: Northrop Grumman IT

- ◆ Enterprise Systems Management (ESM), Release 1
 - ◆ Develop and deploy a comprehensive design for an integrated ESM environment and provide network and systems management for modernized systems.
 - ◆ Alliance Partner: IBM

- ◆ Internet Refund Fact of Filing (IRFOF)
 - ◆ Provides instant refund status information to taxpayers via the Internet.
 - ◆ Alliance Partner: SAIC

- ◆ E-Services 2002 release
 - ◆ Revolutionize how taxpayers transact and communicate with the IRS; reduce burden to the taxpayer; and increase operational efficiency.
 - ◆ Alliance Partner: Unisys

Approved/Funded Projects & Program Business Requirements (con't)

- ◆ Customer Relationship Management (CRM Exam 1120)
 - ◆ A near-term initiative to provide a commercial-off-the-shelf (COTS) solution to resolve tax calculation deficiencies in the existing IRS report generation system.
- ◆ Customer Account Management (CAM) Milestone 2
 - ◆ The main focus of the CAM project is to modernize one of IRS' most crucial and criticized customer-facing processes, customer service. CAM addresses this objective by deploying the organizational changes, processes, and technologies to enable the IRS to provide comprehensive account and tax-law assistance to customers and better manage information about customers.
- ◆ Filing and Payment Compliance (FPC)
 - ◆ Modernize the filing and payment activities

Approved/Funded Projects & Program Business Requirements (con't)

- ◆ Customer Account Data Engine (CADE)
 - ◆ Create authoritative data stores for tax account, tax return information, and perform tax administration.
 - ◆ Alliance Partner: IBM

- ◆ Electronic Data Warehouse / Custodial Accounting Project, (EDW/CAP) Release 1
 - ◆ Implements a single, integrated data repository of taxpayer account information, integrated with the general ledger and accessible for management analysis and reporting.
 - ◆ Alliance Partner: Northrop Grumman IT

- ◆ Integrated Financial System (IFS)
 - ◆ Select/Implement a commercial-off-the-shelf soft package that will be provided to users.
 - ◆ Alliance Partner: BearingPoint

- ◆ Customer Communications (CC) 2002
 - ◆ Enhance the telephone customer service system and process identified by GAO. Improve self-service telephone and internet services. Design of Internet Refund Fact of Filing.
 - ◆ Alliance Partner: SAIC
